

## What can you do with a roll of tape?

Endless fun can be had with a roll of tape of any kind. Masking tape is my favourite, but painters tape is also great and easy to get off walls and floors. We always had a roll of tape on hand at the centre and I have seen so many creative ideas expressed.

For example...

roads/tracks on the floor for cars, or trains  
racing lines for your fast cars coming off a ramp  
mazes

simple lines for balancing, jumping over, lining things up  
letters, shapes, numbers  
hopscotch

spider webs for catching your little sister  
one corner of our room was entirely taped off, closed for construction

Do you have a roll of tape lying about waiting to be transformed?  
I wonder what ideas you and your child will have?

Minion Tic Tac Toe anyone? :)
