

Little Scientists

Science to Your Door!

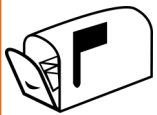

Each week in May, you will receive a small package of materials and ideas to do simple science activities together at home!

Here's how it works:

Email Linda at pe.oeyc@gmail.com with your child/ren name/s and age/s along with your mailing address.

Linda will send your child/ren a small package in the mail. Please be patient with the mail.

(For residents who live in City of Kawartha Lakes & County of Haliburton)

Consider sending Linda (by email) a picture of you participating in the activity! We would love to see the learning taking place with these fun projects.
