

# Leaf Jumping

Oh....the learning that happens!

## Support early learning by:

- Asking questions - I wonder if....
- Assisting in sorting colours, shape of leaves, size.
- Talking about the changes taking place. Ex. I wonder how and why leaves change?
- Wondering how to do things differently. Ex. I wonder how we can pile the leaves higher?
- Problem Solving - How can we share the leaves for everyone to have their own pile?
- Suggesting ways to move and explore. Ex. How can we move quietly as a mouse? Or loudly as an elephant through the leaves?
- Offering ways to be in the moment and being appreciative of nature.
- Giving your full attention to the play and having fun with your child.
