

Roll a Snowman!

Pinterest.ca

Supplies :

Dice

Pencils, crayons

Outline of a snowman (draw your own or use template)

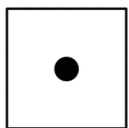

How to play:

Children take turns rolling the dice and adding the appropriate feature to their snowman (eyes, hat, arms, etc.)

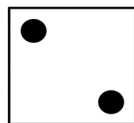

If you roll a number you already have the turn moves on to the next player. Each player gets one roll per turn. The first person to complete their snowman wins! Happy playing!

*** Fun Variations

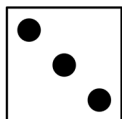

1. Have children roll the die (1 dice) for multiple things. (dice 1—roll once for 1 eye, roll twice for second eye, etc.)
2. Roll the dice in sequence in order to build your snowman (must build your eyes first, then hat, nose etc) choose what order you would like.
3. When you roll the dice add whatever the number comes up onto your snowman. Your snowman could have multiple arms!!! However it's complete when all features are complete. Then colour/ decorate your snowman.
4. Build a snowman outside and decorate it by rolling dice!

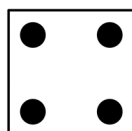

Eyes

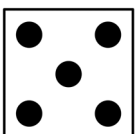

Hat

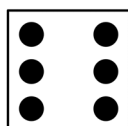

Arms

Nose

Buttons

Mouth
