

# Painting with Baby

Babies love exploring with all their senses: seeing, smelling, hearing, touching and tasting (ensure it's edible paint). Paint can be made from: rice cereal watered down and mixed with food colouring, pudding, jelly, and plain yogurt mixed with Kool-Aid®. They are growing their brain when they explore and have fun!

Painting in a bag that is taped down is less messy:

Recipe for rice cereal 'paint':

Baby in the bath tub with Kool-Aid® yogurt

Step 1

Step 2

FUN & LEARNING without a mess!
